I am an Informatics student at Telkom University passionate about Fullstack Development. Through collaborative projects, I have developed strong problem-solving and coding skills. I enjoy tackling complex challenges and continuously strive to learn new technologies to build scalable, high-quality software.

## Project Experiences

Social News - Bandung, West Java

Oct 2024 - Dec 2024

Backend Developer

- Managed core infrastructure of news application focusing on database design
- Deployed backend features ensuring secure authentication and seamless migration systems
- Delivered fast and reliable news-reading experience through optimized backend architecture

Lapangin - Bandung, West Java

Oct 2024 - May 2025

Fullstack Developer

- Designed and developed website handling database architecture and backend with Java Spring Boot to frontend implementation
- Ensured seamless booking functionality, secure authentication, user reviews, and efficient admin panel
- Handled backend integration for mobile app by exposing RESTful APIs from web backend
- Enabled seamless synchronization and consistent data across both web and mobile platforms

N-Shop - Bandung, West Java

Apr 2025 - Jun 2025

Fullstack Developer

- Developed complete e-commerce platform with product catalog, categories, inventory management, and responsive shopping features (cart, wishlists, promos)
- Built end-to-end order processing system with payment verification, admin approval workflow, and shipping calculation
- Implemented secure user authentication with role-based access control and comprehensive profile management
- Designed intuitive admin dashboard for order management, payment verification, product administration, and business analytics

## Education Level

Universitas Telkom - Bandung, West Java

Sep 2022 - Aug 2026 (Expected)

Bachelor of Informatics, 3.89/4.00

- Completed Online Course Fundamental Front-End Web I (Coding Studio)
- Completed Online Course Fundamental Front-End Web Development II (Coding Studio)
- Completed Online Course Fundamental Algoritma (Coding Studio)
- Completed Online Course Fundamental Database MySQL
- Completed Online Course Intro to Software Engineering (RevoU)
- Completed Online Course Belajar Dasar Pemrograman JavaScript (Dicoding)
- Completed Online Course Mahir Membuat Website dengan Laravel 9 (Coding Studio)

## Skills, Achievements & Other Experience

- Programming & Development** (2025): HTML, CSS, JavaScript, C++, JQuery, Bootstrap, Java, MySQL, Dart, Go, Flutter, Java Spring Boot, Laravel, PHP, Git
- Soft Skills** (2025): I excel in teamwork, leadership, problem-solving, time management, and creativity, ensuring effective collaboration, efficient execution, and innovative solutions.
